Education

University of Illinois Urbana-Champaign **Expected Graduation: May 2028**
B.S. in Computer Science + Economics, Minors in Statistics & Advertising *Champaign, IL*

Experience

Product Management Lead **October 2026 – Present**
CatchBack Cards (YC W26) *San Francisco, CA*
- Lead a **6-person team** to identify product improvements targeting first-deposit conversion and collector retention
- Analyze the **signup-to-deposit funnel** and guide usability testing to identify friction, trust concerns, and UX barriers
- Research competitor and collector behavior to inform **product recommendations** for conversion and retention

Senior Product Strategy & Development Consultant **August 2026 – Present**
Replit *Foster City, CA*
- Conceived an AI learnathon; lead a **7-person team** to help beginners build AI fluency with Replit Agent
- Translate campus problems into **product development briefs** and design assessments to measure gains in AI fluency
- Built a **Next.js/TypeScript event site** with CSV app imports and automated showcase screenshots (Repository)

Campus Ambassador **August 2026 – Present**
Replit *Champaign, IL*
- Drive **campus adoption of Replit Agent** by introducing UIUC students to AI-assisted software development
- Organize **workshops and build sessions** to help students turn ideas into working applications with Replit Agent
- Gather **student feedback** on onboarding and usability to identify adoption barriers and inform product improvements

Senior Strategy Consultant **August 2026 – Present**
Confidential Media Production Firm (NDA) *Evergreen Park, IL*
- Lead an **8-person team** designing Claude workflows for a media firm with **$300K in annual revenue**
- Design a **daily prospecting workflow** using web research, Apollo.io contact enrichment, and automated email outreach
- Develop **Claude review skills** using the founder's creative rubric to help staff revise work before final approval

Product Builder Intern **May 2026 – August 2026**
Ingenio Care, Inc. *Lombard, IL*
- Defined use cases and **product requirements** for an AI care companion, translating patient feedback into features
- Drove Ingenio Care's **App Store launch** by leading web-to-mobile UI/UX redesign across **8 feature areas**
- Built a patient and provider outreach pipeline spanning **750+ contacts** across 8 healthcare networks

Strategy Consultant **January 2026 – May 2026**
Confidential Berkshire Hathaway-Affiliated Manufacturer (NDA) *Macomb, MI*
- Identified **12** potential expansion opportunities by analyzing **500+ fastener applications** across 10 industries
- Built a **200+ row Excel model** to compare product-market opportunities across existing and emerging end markets
- Presented market expansion findings and recommendations to senior stakeholders to inform the client's 2026 roadmap

Projects

Cambio (Repository) | *Next.js, React, TypeScript, Supabase, PostgreSQL, Vercel*
- Shipped a **real-time card game** with guest play, friends, and leaderboards; refined gameplay through playtest feedback
- Engineered a **pure rules engine** with version-checked Postgres commits and redacted views to protect hidden cards
- Added **384 Vitest and 87 Playwright tests** to CI, plus simulated games checking move legality and card conservation

Accord (Repository) | *Next.js, React, TypeScript, PostgreSQL, Python, PyTorch, Modal*
- Built a fragrance discovery app with **24,000+ fragrances**, explainable recommendations, and collection tracking
- Improved offline top-24 recommendation hit rate from **9.0% to 12.0%** by adding similarity to saved favorites
- Built and integrated **ScentLens**, a fine-tuned bottle scanner API with OCR that abstains when unsure (Repository)

Dishwise (Repository) | *Next.js, TypeScript, Neon PostgreSQL, PaddleOCR, ONNX Runtime Web*
- Built a **menu ranker** with on-device OCR that extracted all dishes and prices across **9 rendered test menus**
- Designed **taste-based rankings** with source-linked reasons, distinguishing menu facts from recipe assumptions
- Validated core flows with **100 unit/integration tests** and **128 Playwright runs** across desktop and mobile browsers

Technical Skills

Languages: Python, SQL, TypeScript, JavaScript, Java, C++, Kotlin, R, HTML/CSS
Product & Analytics: User Research, PRDs, Feature Prioritization, A/B Testing, Figma, Amplitude, Mixpanel, Excel
Development: React, Next.js, PostgreSQL, Supabase, PyTorch, Git, Docker, REST APIs, Playwright, Claude API
